what would it take for texas to be the #1 STate for KIDS-instead of #43?

The Annie E. Casey Foundation's National KIDS COUNT Data Book ranks Texas the 43rd best state to be a kid based on economic well-being, health, education, family and community.¹

The Center for Public Policy Priorities' State of Texas Children 2015 assesses child well-being in Texas, examines trends and patterns, and highlights positive policies that can help kids reach their full potential.

More than 7 million kids call Texas home, and nearly 1 in 11 kids in the U.S. lives in Texas.² The ability of our state—and country—to grow, prosper and innovate depends on the well-being of Texas kids.

Key Policy Recommendations

TO MAKE TEXAS THE BEST STATE FOR KIDS,
WE DAKE TEXAS TO ...

Expand Pre-Kindergarten statewide to Full-day programs For currently eligible students.

Close the Coverage Gap and expand health insurance coverage options for families.

Provide more support for informal kinship caregivers, and streamline the process for accessing kinship care benefits.

Raise the state minimum wage and change the state law that prohibits Texas cities From setting their own minimum wage.

CENTER for PUBLIC POLICY PRIORITIES

At the Center for Public Policy Priorities, we believe in a Texas that offers everyone the chance to compete and succeed in life. We envision a Texas where everyone is healthy, well-educated, and financially secure. CPPP is an independent public policy

organization that uses data and analysis to advocate for solutions that enable Texans of all backgrounds to reach their full potential. We dare Texas to be the best state for hard-working people and their families.

Key findings
