March 2017

Immigrants Drive the AUSTIN ECONOMY

A ustin is home to over 260,000 immigrants (14.7 percent of the metro population). The immigrant population in Austin represents 6.3 percent of the entire immigrant population in the state of Texas.¹

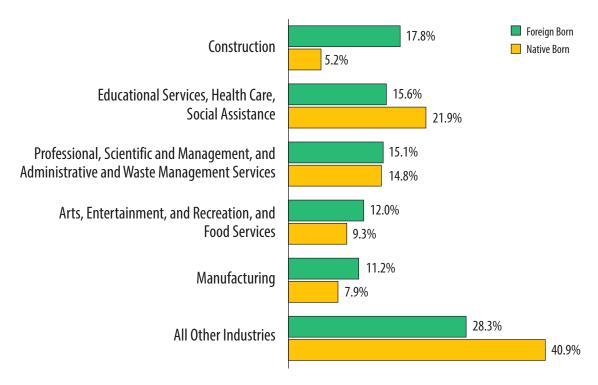

Immigrants have played a leading role in Austin's economic success and make up 18.2 percent of the total metro labor force. Austin immigrants work in a wide range of jobs, most heavily concentrated in construction.²

Immigrants also power the Austin economy as job creators, small business owners and entrepreneurs. Immigrants make up 11.9 percent of the metro's business owners with paid employees,³ and are self-employed at a higher rate (8.9 percent) than the Native-born population (6.6 percent).⁴

*This fact sheet refers to Texas immigrants as any foreign-born resident regardless of immigration or U.S. citizenship status. Austin data in this report is for the Austin-Round Rock Metro Area.

- 8 CPPP calculated the estimated range of potential direct purchasing power using PUMS foreign-born income data, 1-Year Estimate, 2015 American Community Survey, U.S. Census Bureau multiplied by the average annual expenditure rates from the 2015 Consumer Expenditure Survey, Table 1800. CPPP calculated the expenditure rates by dividing average annual expenditures by the average pre-tax incomes for the South (low end of range) and for the U.S. (high end of the range). The estimate includes average spending on housing, food, transportation, healthcare, and all other personal expenditures. For the full list of expenditure categories, see Consumer Expenditure Survey Table 1800. Texas immigrants earned nearly \$119 billion in wage, salary, and self-employment income in 2015.
